

# POLYLAM® ABRIPLANK®

**POLYLAM®** and **ABRIPLANK®** are products constructed of non cross linked polylam. The structure of the closed cells ensures the highest standards of protection from multiple shocks and impacts as well as it enables easy conversion to various shapes. Polylam® and Abriplank® offer simplicity of conversion for ready-to-use packaging.

## SPECIFICATIONS

	DENSITY	LENGTH	WIDTH	COLOUR
LD	23 kg/m <sup>3</sup>	2000 mm	1200 mm	white, pink, black
MD	28 kg/m <sup>3</sup>	2000 mm	1200 mm	white, pink, black
HD	35 kg/m <sup>3</sup>	2000 mm	1200 mm	white, pink, black
UHD	65 kg/m <sup>3</sup>	2000 mm	1200 mm	white, pink, black
HDS	100 kg/m <sup>3</sup>	2000 mm	1200 mm	white
HDS+	140 kg/m <sup>3</sup>	2000 mm	1200 mm	white

## PROPERTIES

- non-cross-linked foam structure can be recycled back to a raw material
- provides shock absorption for light and heavy products in short or long distribution cycles
- an environmental alternative for polyurethane and polystyrene
- 100% recyclable
- odour-free
- excellent creep performance overtime
- does not contain heavy metals
- the foam is CFC free hence does not have a negative effect on the environment
